SUMMARY

Senior full-stack developer with 7+ years building complex enterprise SaaS applications across Angular front ends and Java/Spring Boot, Node, and Python back ends. Deep experience with Angular 4–20, RxJS, NgRx, REST API integration, and major framework upgrades, delivering features end-to-end with product, design, and backend teams.

EXPERIENCE

Senior Full Stack Developer

Rohirrim Inc

July 2025 – May 2026, McLean, VA

- Owned Angular framework upgrades from v17 to v20 and Angular Material upgrades from v16 to v19, resolving visual regressions across the application.
- Reduced document tag interaction latency from multi-second round-trip times to milliseconds by replacing pessimistic UI locking with optimistic updates against the REST back end.
- Migrated document processing from NestJS to FastAPI with Docling, enabling mid-document tag editing without full re-tagging.
- Refactored authentication and authorization for Auth0 and Okta with reactive entitlements and feature flags, unblocking Word add-in integration work.
- Introduced NgRx SignalStore and TanStack Query for NextGen state management, replacing ad hoc service-based state across the application.
- Architected and delivered ~90% of the NextGen frontend prototype (~10k lines) using AI-assisted development workflows.

Senior Software Engineer

3Pillar Global, Inc: Product Development Consultants

June 2023 – June 2025, Toronto, ON

- Built a B2B2C auto-financing application in a high-security environment using Angular 16, Angular Material, NgRx, and a Spring Boot REST back end, collaborating closely with the Java team on API contracts.
- Led custom map interaction development using QGIS and OpenLayers for a large B2B legal services platform.
- Integrated an Angular 15 custom element into a legacy AngularJS 1.5 system, preserving functionality within a .NET environment.
- Implemented end-to-end tests using Playwright to improve reliability and regression coverage.

Full Stack Developer

DecisionLink, Inc: B2B Value Enablement Platform

January 2022 – April 2023, Atlanta, GA (Remote)

- Developed five new features for an enterprise SaaS application using Angular 12 against a Java REST back end, working with a 10-person offshore team.
- Performed over 100 code reviews and contributed to stricter code-quality guidelines and Angular best practices.
- Led an Angular 8 to Angular 12 upgrade across an application with ~600 components.
- Created an RxJS-based translations cache, reducing total API requests by 13% and improving page load performance by ~0.5 seconds.

Senior Front End Developer

Ratio.City, Inc: B2B Geospatial Data Platform

January 2020 – December 2021, Toronto (Remote)

- Developed GIS-based mapping application UI for four major features using Angular 11, Mapbox, and Material Design.
- Managed complex geospatial application state with NgRx side effects.
- Re-architected the front-end app to improve architecture, performance, UX, and maintainability.
- Hired, onboarded, and managed a junior front-end developer to first successful performance review.

Full Stack Developer

Daakor, Inc: B2C Interior Design Platform

May 2019 – December 2019, Toronto

- Integrated SendGrid API and Shopify GraphQL API for customer messaging and e-commerce workflows.
- Implemented RabbitMQ for asynchronous message queue processing, resulting in a 200% increase in message sending speed.
- Instituted a CI/CD pipeline from Bitbucket to AWS, reducing deployment time to under 4 minutes.

SKILLS

FRONT END: TypeScript, JavaScript (ES6+), Angular 4–20, AngularJS, RxJS, NgRx, NgRx SignalStore, TanStack Query, Angular Material, HTML5, SCSS/CSS

BACK END: Java, Spring Boot, REST APIs, Microservices, Node.js, NestJS, FastAPI, Python, GraphQL, MySQL, .NET

DEVOPS / TESTING: Docker, AWS, CI/CD (GitHub Actions, Bitbucket Pipelines), Auth0, Okta, Playwright, Cypress, Git, Atlassian Suite (Jira, Bitbucket, Confluence)

AI / TOOLING: LangGraph, Claude, Codex, agentic workflows, AI-assisted development, technical specification, task decomposition

EDUCATION

Software Engineering

Flatiron School • New York, NY • 2018
